## Price, Terms & Conditions

These carbon offsets represent the reduction of a specific quantity of greenhouse gas (GHG) emissions. By purchasing these offsets, you alone have the right to all associated claims about the environmental benefits they embody. Carbon offsets are to be regarded as a real environmental commodity, not a donation or investment in a future emissions reduction project. The verified GHG emissions reductions you purchased are sourced from projects that have been validated and registered under high-quality project standards.

The Carbon Offset Content Label represents the mix of project types, locations, and verification programs that will be used to supply your offsets. The actual percentages or metric tons of GHG emissions reductions by type may vary by a small percentage. In the case of a significant variance, the Seller of the Certified Offsets is obligated to provide you with more accurate historical disclosure. For more information see the Green-e<sup>®</sup> Climate Code of Conduct available at: [www.green-e.org](http://www.green-e.org)
